

Veiddu rím

Efni:

- plöstinarvél og plast í hana
- skæri

Aðferð:

- prenta spjöldin út á kartonpappír og klippa til
- setja í plast og plöstinarvél og klippa til aftur

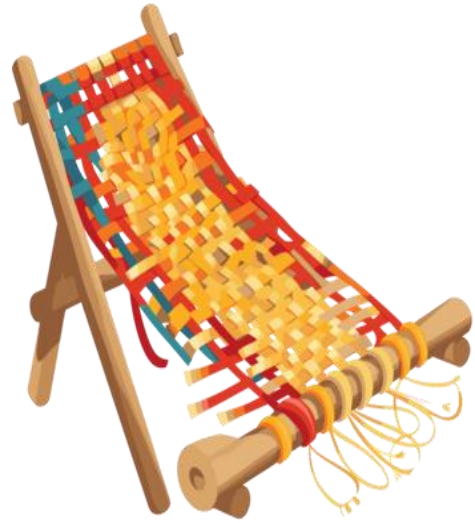

Spilið:

- Spilað eins og veiðimaður. Ef við miðum við að fjórir spili þá dregur hver 5 spjöld úr bunkanum og hefur á hendi. Einn spyr í einu og eru allir spurðir þannig að ef t.d. er spurt hvort einhver eigi eitthvað sem rímar við hús og einn á mús og annar lús láta þeir báðir sitt af hendi og spyrjandinn er kominn með einn bunka sem hann setur á borðið. Þegar kominn er bunki er dregið nýtt spil úr stóra bunkanum.(Þjú rím eru af öllu) Ef enginn á það sem rímar við hús er sagt veiddu og viðkomandi dregur spil úr bunkanum. Næsti spyr þá hópinn og svona gengur spilið þar til öll rímin eru komin í bunka eða þar til spilararnir ákveða að komið sé nóg.
